

# The Zone Sportsplex Indoor Soccer Guest Player Policy

- The purpose of allowing guest players is to allow a team in a bind with too few players in special circumstances like sickness, vacations, injuries, ... to still play their game without forfeiture.
- A team who has not paid it's full team fee will not be allowed to use guest players
- All guest players must check in at The Zone Front Desk to receive a note to show the referee. Please show up 15 mins prior to your game to allow enough time to get the 'ok to play' note from the front desk
- A guest player with a Zone Players cards will be allowed to guest play for no cost. The captain of the receiving team may ask the player to pay towards the teams account and is at the discretion of the captain.
- A guest player who does NOT have a valid Zone Players Card, must have a signed Zone Liability Waiver on file, pay the drop in fee of \$5, and receive a note to play from the front desk..
- If a team has at least 2 subs from its rostered players, they are not allowed to have any guest players for that game
- Guest players can not be registered with another team in that same league. As is stated in our players rules, any player registered for a team in a league playing for another team in that same league forces that team to forfeit as this is not the intent of the guest player policy.
- The maximum number of guest players allowed in a single game is 3 and for coed it is 2 men and 2 women. Any number above these limits will result in forfeiture.
- If the league hosts a season ending tournament or final game, no guest players are allowed.
- Remember, the limit for a team roster is 18 players. But a player can only be rostered for one team within a league.
